**Subject:** Community Meeting on Exide Technologies' Title V Permit Modification

*On behalf of Mohsen Nazemi*

Good afternoon to all,

On Tuesday, Nov. 25, a community meeting will be held to give a status update and overview of the Title V Permit modification and the pending applications that have been sent to EPA for their review to incorporate new control equipment and modifications/upgrade to the building ventilation (see first attachment). EPA's 45 day review period ends on Nov. 28. The second attachment is the community meeting notice in English and Spanish.

Best regards,

Andrew
